

Opening

SPHN Review Meeting, 5-6 September 2019, Basel

Prof. Peter J. Meier-Abt

Vice-Chairperson of the National Steering Board

Chairperson of the National Steering Board (2016-2018)

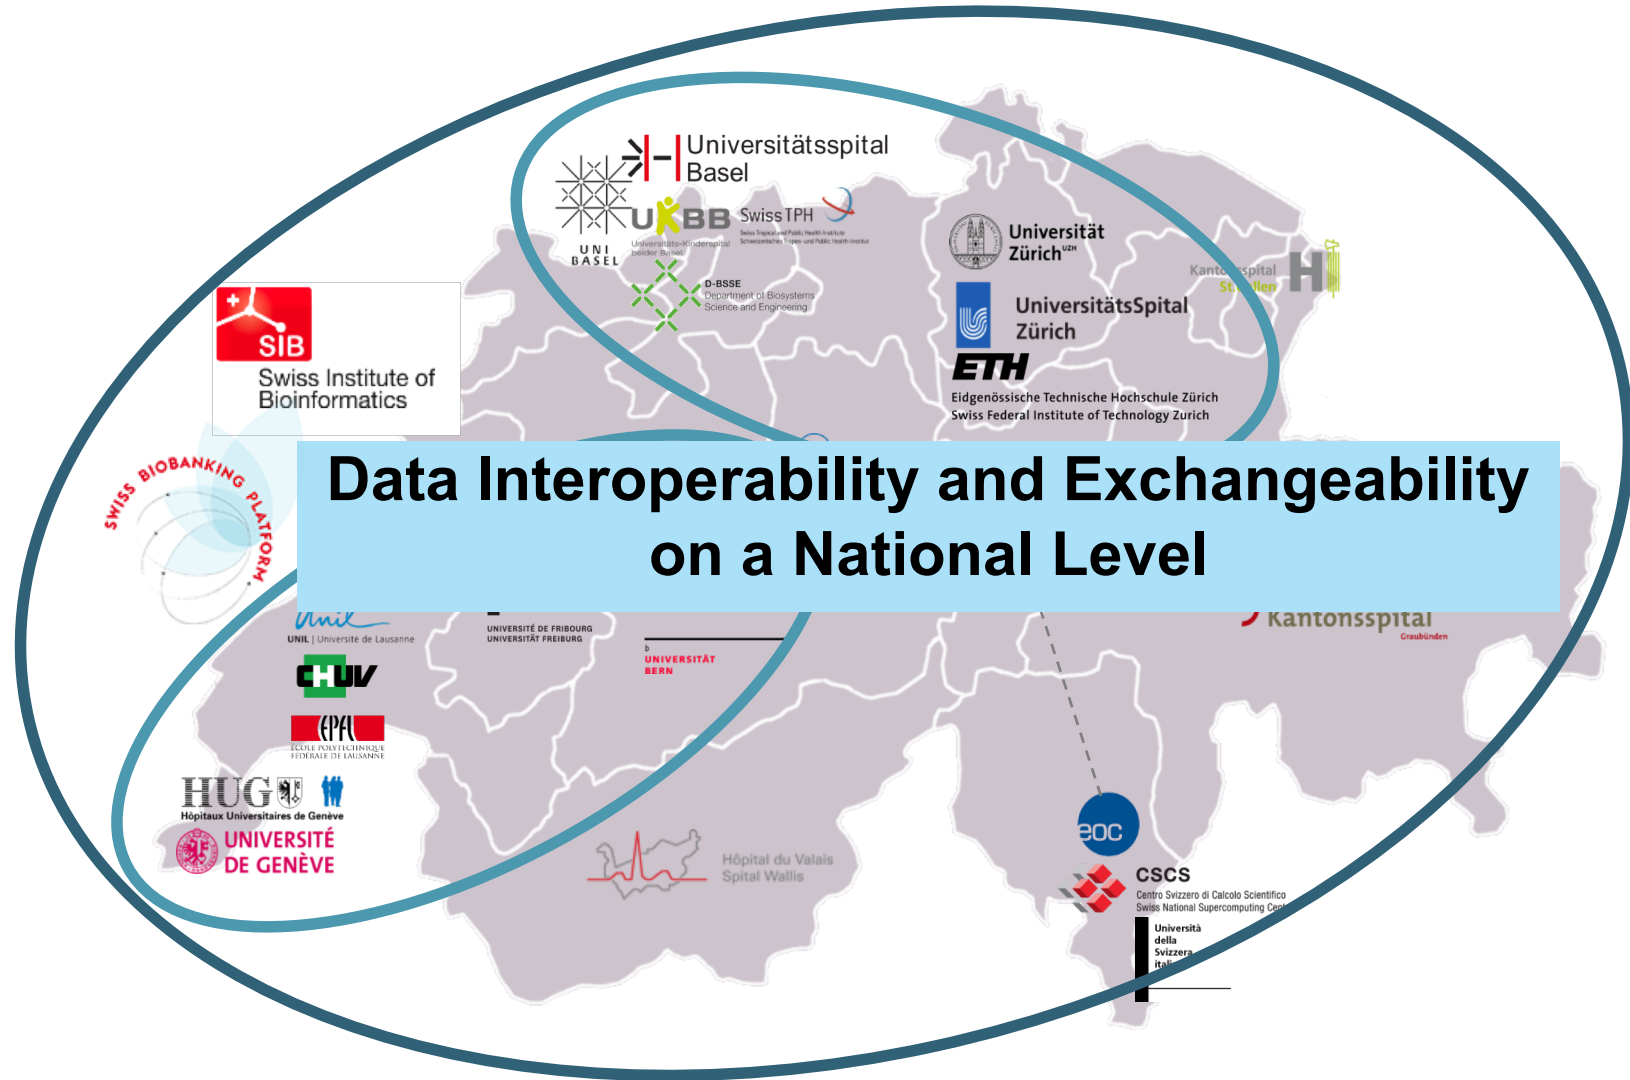

A project of

Swiss Institute of
Bioinformatics

Swiss Personalized Health Network (SPHN)

Genesis of the Swiss Personalized Health Network Initiative

Initiative proposed by a SERI Core Steering Group & the Swiss Academy of Medical Sciences (SAMS)

- Preparatory work: June 2014-2015
- Implementation phase: June-December 2016

Preliminary reports:

“Personalized Health”. Report to discuss options and frame for a new Swiss Initiative.
By an interdisciplinary and inter-institutional working group, June 2014.

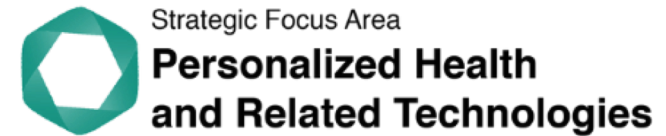

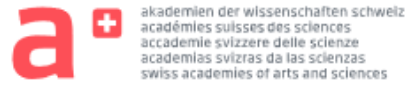

Konzept Nationale Förderinitiative: „Systems Medicine – Personalized Health“.
1st SERI commissioned Report by Working Group 1, September 2014.

Interoperability of clinical and -omics data in Switzerland.
2nd SERI commissioned Report by Working Group 2, February 2015

Setting up an Organisational Structure until end of 2015
3rd SERI commissioned Working Group 3

Personalized Health in Switzerland

Personalized Health Alliance Zurich Basel

ehealthswiss

swissethics

Schweizerische Ethikkommissionen für die Forschung am Menschen
Commissions d'éthique suisses relative à la recherche sur l'être humain
Commissioni etiche svizzere per la ricerca sull'essere umano
Swiss Ethics Committees on research involving humans

Scope of the SPHN Review Meeting

The first 15 projects funded by SPHN (3 co-funded by PHRT) and the Collaboration Agreements with the University Hospitals started in 2018.

The goal of this event is to:

- Get information about **SPHN's core activities** (ELSlag, Data Coordination Center and BioMedIT) and PHRT – the complementary initiative of the ETH-Domain;
- Hear what **infrastructures** have been/are being developed by the **projects funded in the call 2017**;
- Learn about the **Collaboration Agreements with the University Hospitals** and the implementation of clinical data management systems;
- **Exchange know-how, best-practices and experiences** with respect to challenges and difficulties as well as how they were addressed.
- **Provide the IAB with the opportunity** to review the progress of the funded projects as well as the initiative as a whole.

Scope of the SPHN Review Meeting

The first 15 projects funded by SPHN (3 co-funded by PHRT) and the Collaboration Agreements with the University Hospitals started in 2018.

The goal of this event is to:

- Get information about **SPHN's core activities** (ELSlag, Precision Medicine Center and BioMedIT) and PHRT – the complementary initiative of the SPHN; and
- Hear what **infrastructures** have been/are being implemented by the **projects funded in the call 2017**;
- Learn about the **Collaboration Agreements with the University Hospitals** and the implementation of clinical information management systems;
- **Exchange best-practices and experiences** with respect to challenges and difficulties as how they were addressed.
- **Provide the IAB with the opportunity** to review the progress of the funded projects as well as the initiative as a whole.

Data Interoperability and Exchangeability on a National Level

International Advisory Board

Prof. Russ Altman, Chair
Stanford University

*Bioengineering,
Biomedical data sciences*

Prof. Søren Brunak
University of Copenhagen

*Systems biology,
Bioinformatics*

Prof. Iain Buchan
University of Liverpool

*Health informatics,
Public health*

Dr. Joan Dzenowagis
WHO

*Health policy,
Ethics*

Prof. Jan Hazelzet
Erasmus University
Rotterdam

*Pediatrics, Healthcare
quality & outcomes*

**Dr. Marie-Christine
Jaulent**
INSERM

*Medical informatics,
eHealth*

Prof. Oliver Kohlbacher
University of Tübingen

*Bioinformatics,
Personalised medicine*

Prof. Paul Klenerman
University of Oxford

*Immunology, infectious
diseases*
Excused

Prof. Dan Roden
Vanderbilt University

*Clinical pharmacology,
Cardiovascular medicine*

Prof. Amalio Telenti
The Scripps Research
Institute

*Genomics,
Data sciences*
