

Terms of Use

These Terms of Use (“**Terms**”) apply to the Swiss Personalized Health Network (“**SPHN**”) Schema Forge and Schema Scope services (collectively, the “**SPHN Services**”) operated by the Personalized Health Informatics (“**PHI**”) group of the SIB Swiss Institute of Bioinformatics (“**SIB**”, “**us**”, “**our**”). By accessing or otherwise using the SPHN Services, you agree to be bound by these Terms as part of a legally binding contract.

1. **Content Available.** The use of the SPHN Services may allow you to access content provided by us and third parties. In some cases, you may be required to enter into specific licenses with these third parties as indicated on the SPHN Services.
2. **Intellectual Property Rights.** All intellectual property rights, including copyrights, trademarks and the materials published in the SPHN Websites (i.e. text and images) are owned by SIB or the latter is authorized to use them. You are permitted to make extracts for your own private purposes (i.e. for non-commercial use) under the precondition that all intellectual property rights are respected. This includes all copyright notices included in connection with such content (e.g. © 2024 SIB Swiss Institute of Bioinformatics). The name and logos of the SIB must not be associated with publicity or business promotion without SIB’s prior written consent.
3. **User’s Material.** By submitting, or otherwise providing your material to the SPHN Services, you agree that such material will be treated as non-confidential by SIB. SIB will not be liable for any unauthorized use or disclosure of any material that you upload to the SPHN Services.
4. **Acknowledgement.** If you wish to acknowledge us when you publish or distribute results that were fully or partially based on contents obtained from SPHN Services, please use the following acknowledgements:

For the SPHN Schema Forge: “The semantic artefacts were generated by the SPHN Schema Forge web service (<https://schemaforge.dcc.sib.swiss>) provided by the Personalized Health Informatics Group of the SIB Swiss Institute of Bioinformatics. The design rules can be found at Touré, V., et al. (2023), FAIRification of health-related data using semantic web technologies in the Swiss Personalized Health Network. Scientific Data, 10(1), p.127 (doi: 10.1038/s41597-023-02028-y)”.

For the SPHN Schema Scope: “The graphics were generated by the SPHN Schema Scope web service (<https://schemascope.dcc.sib.swiss/>) provided by the Personalized Health Informatics Group of the SIB Swiss Institute of Bioinformatics”.

5. **Limited liability.** The Services are provided on an “AS IS” basis. To the maximum extent permitted by applicable law, SIB makes no representations or warranties, express or implied including, without limitation (i) implied of warranties of accuracy, quality, performance, compatibility, merchantability, and/or fitness for a particular purpose and (ii), that any Services or other materials are error-free. SIB shall not be liable for (i) any direct, indirect incidental or consequential loss or damages, arising out of the use of the SPHN Services and (ii) for the consequences of any temporary or permanent discontinuity of the SPHN Services.

6. **Data Protection.** Through its [Privacy Policy](#), SIB is committed to protecting your privacy and the confidentiality of your personal data. When accessing and using the SPHN Services, SIB only collects the following data: IP addresses, date and time of a visit, and your email address and content of your queries (only when you send an email to SIB). Your personal data is only processed to provide you with an answer when you reach out to us.
7. **Contact.** If you have any questions about these Terms, you can contact the SIB Data Coordination Center at dcc@sib.swiss. SIB reserves the right to amend and update these Terms at any time.
8. **Governing Law and Jurisdiction.** These Terms are governed by Swiss substantive law, without reference to its conflict of laws provisions. The competent courts in Lausanne, Switzerland, have exclusive jurisdiction.
